

## **Agricultural Economics Division**

**BARI Head Office, Gazipur**

### **Activities**

- To estimate the Financial and economic profitability of BARI mandated crops, competitive crops and farming systems for assessing alternatives, and setting priorities for future investments.
- To generate information and address the researchable issues through farm level investigations of different crops and improved technologies.
- To assess and evaluate the adoption and socio-economic impact of improved technologies of BARI mandated crops.
- TO conduct research on marketing, value chain development and post-practices (storage, processing, utilization etc.) of BARI mandated crops.
- To determine different efficiency measures and estimates by using descriptive and inferential statistics, economic, formula and model for situation analysis, forecasting, optimal resource use efficiency , yield gap analysis and so on.
- To suggest guidelines for researchers and policy makers.
